American Health Consultants

HOSPITAL INFECTION CONTROL

PRESENTING THE LATEST NEWS AND COMMENT IN THE FIELD OF HOSPITAL INFECTION CONTROL

1989 INDEX

Volume 16, Numbers 1-12

pages 1-164

Editor: Gary Evans

A

AIDS (see also HIV)
attitudes toward affect precautions, OCT:138
knowledge of diagnosis and exposures, NOV:14
nosocomial infections in patients, MAR:36
reused syringes cause cases in USSR, AUG:100
surgeon may have contracted occupationally, MAR:34
worker discomfort in treating patients with, JUL:93

American Hospital Association
charges overkill on OSHA standard, NOV:141

American Medical Association
warns against federal waste laws, MAR:42

Association for Practitioners in Infection Control
recertification method spurs debate within, FEB:17
urges OSHA to weigh actual risks, DEC:158

B

Blood
dividing transfusions increases risk in NICU, FEB:20
exposures to in the operating room, MAY:69
hepatitis A infections after transfusion, JUN:78

Body substance isolation
shigella outbreak after implementation of, NOV:151

C

Catheters
changing triple-lumen weekly reduces sepsis, JUL:92
silver-oxide coating effective on, NOV:150

Centers for Disease Control
axes infection control course, MAR:40
following severe GAS infections, DEC:163
monitoring rotavirus infections, AUG:97
ongoing needlestick study by, AUG:109

Certification in infection control
recertification method spurs debate, FEB:17
standards for candidates, FEB:19

Coagulase-negative staphylococcus
bacteremia due to in NICU, JAN:11

D

Disinfectants (see also Germicides)
EPA label policy for HIV, APR:48
avoid errors in treating endoscopes with (RQ), MAY:66
sodium, sugar solutions discussed (RQ), SEP:121

E

Emergency medical technicians
NIOSH guidelines for HIV, HBV, APR:50

Emergency room
inadequate precautions in, SEP:116
measles outbreaks in, MAY:64

Endoscopy
cleaning and processing of scopes (RQ), FEB:26
avoid common disinfection errors (RQ), MAY:66

Enterobacter cloacae
infects six patients in burn unit, NOV:150

Enterococcus
strains may be developing resistance, NOV:148

Environmental Protection Agency
approves germicides for HIV label claims, MAY:65
clarifies policy on HIV label claims, APR:48
launches waste tracking plan, MAY:57
medical waste definitions, MAY:59
medical waste tracking form, MAY:61
states bow out, join plan, JUN:79

F

Food and Drug Administration
tightens oversight on gloves, MAR:43
to study barrier protection, HIV levels, FEB:24

G

Germicides, (see also Disinfectants)
products approved for HIV label claims, MAY:65

Gloves
FDA tightens oversight on, MAR:43
higher percentage of vinyl fail water tests, JAN:12

Gowns
passage of body fluids through, NOV:157

Group A streptococcus
CDC following severe infections with, DEC:163
infections due to scalp carrier, MAY:71

Guest columnist
implementing SBO can sharpen programs, MAR:39
launching SBO programs requires planning, FEB:21
preventing central line sepsis, AUG:104
OSHA underestimated cost of law, OCT:133

H

Handwashing
infections and fake nails, polish (RQ), OCT:136
pediatric nurses top washers, AUG:108
prevalence of chapped hands, dermatitis, JUL:94

Hepatitis
HAV due to infected blood, JUN:78
HBV infections and workers' comp, DEC:153
HBV infection risk factor for HIV, JUN:78
HBV outbreak due to multidose vial, AUG:101
NANB test hailed; HBV a tragedy, JUN:73
nursing students at risk of HBV, JUN:76
OSHA would require worker training on, JUL:91

Hospitals
budgets hit by infection control, NOV:152
construction project precedes outbreak, AUG:107

Human immunodeficiency virus (see also AIDS)
attitudes toward affect precautions, OCT:138
germicides approved for label claims, MAY:65
HBV infection risk factor for, JUN:78
knowledge of diagnoses and exposures, NOV:147

label claims against on disinfectants, APR:48
nosocomial infections in patients, MAR:36
OSHA would require worker training on, JUL:91
postexposure algorithm, AUG:103
reused syringes cause cases in USSR, AUG:100
surgeon may have contracted occupationally, MAR:34
testing after exposures, AUG:102
worker discomfort in treating patients with, JUL:93

Humidifiers
water changes reduce risk of (RQ), APR:55

I

Immunization
employee algorithm for measles, JUL:88
of staff to prevent nosocomial measles, JUL:85
of workers to prevent nosocomial flu, APR:45

Infection control practitioners
divided on recertification issues, FEB:17
ICP disputes OSHA waste policy, MAY:63
standards for certification, FEB:19

Influenza
nosocomial flu outbreaks, APR:45
vaccine for 1989-1990 season, MAY:70

Intensive care units
CDC infection definitions for NICUs, JAN:7
nosocomial infections in NICUs, JAN:4
preventing infections in NICUs, JAN:1
MRSA outbreak in an NICU, JAN:9
CONS outbreak in an NICU, JAN:11

Intravenous filters
have proponents; avoid if doubtful (RQ), MAR:37

Isolation
lowers risk to ventilator patients, DEC:161
reduced under universal precautions, OCT:132

J

Journal Review (Articles cited in each column are not listed in this index) See MAR:44; APR:56; MAY:72; JUN:84; JUL:96; AUG:112; SEP:124; OCT:140; NOV:152; DEC:164

L

Laundry workers
firm urges dropping HBV requirement for, NOV:146

Legionella
fighting by heating water, culturing, AUG:107
from water in respiratory equipment, NOV:149
nosocomial outbreak linked to showers, MAY:67

M

Manual ventilation bags
should be disinfected daily, FEB:23

Measles
employee vaccination algorithm, JUL:88
outbreaks expose susceptible staff, JUL:85
outbreaks in emergency rooms, MAY:64

Medical waste (see Waste disposal)

Methicillin-resistant Staphylococcus aureus
cohorting ends prolonged outbreak, NOV:156
outbreak in a NICU, JAN:9
staff transmission spreads outbreak, SEP:122

MMWR Update
B_{19} infections poses nosocomial risk, APR:51
flu recommendations for workers, AUG:111
preventing pneumococcal infections, SEP:123
tainted povidone iodine linked to outbreak, APR:52
tuberculosis targeted for elimination, JUN:82

Multiple infections
risk increases with each, DEC:160

N

National Institute for Occupational Safety and Health
guidelines for emergency medical technicians, APR:50

Needlesticks
among co-workers raise questions, SEP:113
caused by poor sharps designs, NOV:144
CDC study of, AUG:109
in-room boxes reduce disposal injuries, MAR:41

Neonatal intensive care units
CDC infection definitions for, JAN:7
CONS bacteremia in, JAN:11
MRSA infection linked to dermatitis, JAN:9
nosocomial infections in, JAN:4
preventing infections in, JAN:1
Serratia marcescens outbreak in, AUG:107
splitting blood increases risk in, FEB:20

O

Occupational Safety and Health Administration
AMA charges overkill on standard, NOV:141
APIC urges to consider actual risk, DEC:158
draft of standard opens debate, MAR:29
health care facilities fined $50,000, JAN:15
hospital survey to assess cost, OCT:130
key areas of proposal summarized, MAR:32
proposed law on bloodborne pathogens, JUL:90
requires worker training on HIV, HBV, JUL:91
survey on infection control, DEC:159

Operating room
avoid environmental culturing in (RQ), JAN:15
HIV knowledge and exposures, NOV:147
need for preoperative shaves doubted, JUN:82
study shows frequent exposures in, MAY:69

P

Peritonitis
infections due to breaks in technique, MAR:35

Pneumonia
risk scale in development, SEP:117

Povidone iodine
use of 10% pads (RQ), JAN:14

R

Readers write
- certification board makes changes, SEP:120
- humidifiers used despite risk, AUG:110
- infections following circumcision, MAR:38
- laundry debate continues, MAY:54
- point on linen handlers applies to all, MAY:68
- protecting laundry workers, FEB:27
- reader challenges laundry letter, MAY:52
- recapping needles despite guidelines, JUN:80
- recertification not "us versus them," JUN:81
- safety of povidone iodine, MAY:68

Rhodotorula rubra
- colonization due to bronchoscopy brushes, SEP:122

Rotavirus
- may cost $216 million in U.S., DEC:162
- nosocomial outbreaks of, AUG:97

S

Salmonella enteritidis
- infections due to raw eggs, MAR:33

Serratia marcescens
- outbreak in NICU due to construction, AUG:107
- poor disinfection causes outbreak of, JUN:83

Shigella
- nosocomial outbreak of group D, NOV:151

Sterilization
- little risk with use of table-top, SEP:121
- methods for monitoring of (RQ), JUL:95

T

Tuberculosis
- factors affecting testing and treatment (RQ), FEB:25

U

Universal precautions
- barrier techniques for tasks under, OCT:127
- costs rise under, OCT:132
- honing compliance strategies for, OCT:125
- only as good as employee compliance, DEC:160
- OSHA survey to assess cost, compliance, OCT:130
- reduce exposures, raise costs, NOV:147

V

Vaccine (see also immunization)
- compliance with HBV programs, JUN:73
- for measles, mumps, rubella, JUL:85
- recommendations for 1989-1990 flu season, MAY:70
- rotavirus would need multivalent type, DEC:162

W

Waste disposal
- AMA warns against federal waste laws, MAR:42
- biological contacter system for (RQ), OCT:137
- EPA definitions of, MAY:59
- EPA requirements stress tracking, MAY:62
- EPA tracking form, MAY:61
- EPA tracking plan for, MAY:57
- Ohio law fuels higher costs, SEP:119
- OSHA policy on red bags, MAY:63
- states bow out, join EPA plan, JUN:79

Citations listed in the 1989 Hospital Infection Control index are referenced by the month of the issue and the page number on which the article begins. Readers questions are denoted by (RQ). Back issues of HIC, when available, are $11 each. To order, send a check or money order to: American Health Consultants, Subscription Department, 67 Peachtree Park Drive, NE, Atlanta, GA 30309.
